Nomination Guidelines

While filling out this form, you will be prompted to provide responses on the nominee's candidacy for the award. Please include an example and/or data supporting your response.

Although the form has no word limit, **the judges will only see the max words for each of your answers. Our system automatically shortens any responses longer than the max limit.**

This year we are continuing in our efforts to try and remove as much implicit bias as possible from the judging process. **Please fill out your nomination narrative without names and [using genderless pronouns](#).** Try to highlight the achievement or leadership of your nominee without any identifying information that might skew the judging process.

We will submit the narratives to the judges separate from the identities of both you and your nominee in hopes of creating a more equitable outcome. Please feel free to reach out to mark.metzger@ofm.wa.gov with any questions or concerns before you submit a nomination.
